

CITY OF HARRISONBURG DROUGHT MONITOR DASHBOARD

8/3/2012

| Conservation Trigger | Status | Environmental Status (MG) | Trigger Status | No Restrictions Trigger | Watch Trigger | Warning Trigger | Emergency Trigger |
|---|----------------|---------------------------|----------------|-------------------------|---------------|-----------------|-------------------|
| Dry River-Switzer (reserve volume / withdrawal) | No Restriction | 1029 | 316 | ≥31 days | 30 days | 14 days | 7 days |
| North River (withdrawal / instream) | No Restriction | 138.2 | 2% | ≤ 15% | >15% | >18% | >21% |
| Shenandoah River (withdrawal / Instream) | No Restriction | 385.4 | 0% | ≤ 8% | >8% | >9% | >11% |

Instructions: compare Trigger Status to Restriction Status

The drought monitor dashboard has been formatted to follow the City Code of Ordinances Section 7-4-11 and the underlying "Upper Shenandoah River Basin Water Supply Plan", with specific reference to the "Drought Response and Contingency Plan" component of the latter.

The ordinance and the Water Supply Plan can be viewed at www.Harrisonburgva.gov.

Current conditions are shown above under "Status" with the most real time data available under "Trigger Status".
